EDUCATION

California State University, Northridge

Bachelors of Science Degree in Computer Science

Northridge, CA

August 2023 – 2026

Santa Monica College

Completed IGETC and prerequisites for Computer Science Transfer

Santa Monica, CA

2019 – 2023

PROJECTS

G6 Labs | *Go, WebGPU, JavaScript, HTML, CSS*

- Developed an interactive web-based computational lab focused on linear algebra and graphics concepts as part of a collaborative team.
- Implemented a matrix calculator supporting basic matrix operations and RREF with step-by-step computation breakdowns.
- Led frontend development by designing the UI, implementing user authentication with bcrypt and OAuth, and creating supplementary learning resources to enhance the user experience.

BookmarkIt | *Next.js, TypeScript, PostgreSQL, Drizzle ORM*

- Developed a multi-user web platform for organizing and managing bookmarks with a normalized relational database schema.
- Built a Chrome extension using Manifest V3 to capture in-browser bookmarks and sync them to the platform.
- Designed reusable bookmark management features to support creating, editing, deleting, and organizing saved links.

3D Portfolio Website | *Three.js, Blender, React, JavaScript, GLSL, Tailwind CSS*

- Developed an interactive 3D portfolio website featuring a Blender-modeled room rendered in Three.js.
- Integrated a React-based desktop UI into a 3D computer monitor using CSS3D rendering and iframe embedding.
- Optimized 3D assets and rendering performance through texture baking, UV unwrapping, GLB compression, model cleanup, and scene organization.

EXPERIENCE

After School Teacher and Personal Tutor

2020-2021

ECC Academy

Los Angeles, CA

- Managed an elementary level after school class and guided students in various subjects such as Math and English.
- Held private one on one sessions with students in Mathematics covering basic algebra to beginner calculus.

Barista

2023-2025

3Thyme

Los Angeles, CA

- Worked as a barista serving high quality coffee, learning various brewing techniques, and providing excellent customer service.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React, Next.js, Three.js, React Three Fiber

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Tools & DevOps: Git, GitHub, GitHub Actions, Blender
